**FOOTNOTES:**

- (1) IAW USMEPCOM Regulation 40-1, for applicants over 40 years old, an Over-40 Physical Supplemental Worksheet (USMEPCOM Form 40-1-9) must be completed and submitted with physical. Additionally a FBS, lipids, waist circumference, 12 lead ECG, IOP, and for female applicants a mammogram and pap smear both performed within the preceding 12 months are required. If applicant is over 50 years old, a DRE with FOBT is also required.
- (2) Dive physicals are acceptable for courses at the Naval Diving and Salvage Training Center (NDSTC) for up to 24 months to the class convene date.
- (3) Static Line Parachute Training/Basic Airborne Training examinations are valid for up to 60 months. If it is older than 24 months the Army Airborne School will require an interim history form to be completed by the examinee. The member should be directed to the Army Airborne School for details regarding the appropriate form to complete.
- (4) HALO/Military Free Fall (HMFF) examinations are valid for up to 24 months from date of exam to class convene date.
- (5) The following items are disqualifying for Army HMFF training: Uncorrected near visual acuity (14 inches) of worse than 20/50 in the better eye. Uncorrected distant visual acuity of worse than 20/100 in either eye. Distant vision that does not correct to 20/20 in both eyes with spectacle lenses. Any refractive error worse than plus or minus 8 diopters. Failure to pass the PIP or FALANT test for color vision unless the applicant is able to identify vivid red and vivid green as projected by the Ophthalmological Projector or the SVT. Manifest refraction not required if applicant 20/20 or better for both DVA and NVA with/without correction.
- (6) Soft lenses must not be worn for at least 30 days before initial flying physicals. Hard, rigid, gas permeable lenses must not be worn for at least 90 days before the exam. Confirmation of this must be documented on the DD FORM 2808.
- (7) For NDSTC dive training, tests must be completed within 90 days of the physical examination date. TB screening is required within 6 months of the physical examination date and completion of the Tuberculosis Risk Exposure Assessment (NAVMED 6224/8). The applicant will be required to provide hardcopies of the EKG with interpretation, audiogram, DD FORM 2766C (Immunization Record), as well as printouts of the chest radiograph interpretation and all required labs. These items should be included in the dive packet. Before leaving for dive school the applicant should also complete NAVPERS 1200/6. This form is intended to serve as an interval medical history from the time of the dive physical was completed to the present.
- (8) For urinalysis comment on specific gravity, pH, glucose, protein, ketones, blood as well as microscopic RBCs and WBCs.
- (9) In addition to urine HCG testing, during the dive medical exam female applicants will be counseled on the potential hazards to the fetus inherent in diving. This counseling must be documented on the DD Form 2808, block 73.
- (10) IAW DoDI 6485.01 military personnel will be routinely screened every 2 years for HIV unless more frequent screenings are clinically indicated. Report current (must be within 2 years for military personnel and within 90 days for civilian personnel) HIV test result.
- (11) IAW AFI 44-102 applicants are current if keeping with present nationally recognized guidelines, such as those published by the American College of Obstetricians and Gynecologists (ACOG) or the US Preventive Services Task Force (USPSTF). Record date and result on DD FORM 2808. Women's health examinations may be transcribed and do not have to be repeated if current.
- (12) IAW MANMED P117 applicants are current if keeping with the American Society for Clinical Pathology (ASCP) guidelines. Record date and result on DD FORM 2808. Women's health examinations may be transcribed and do not have to be repeated if current.
- (13) IAW AR 40-501, applicants for SLPD and HALO/MFF duties require pap smears within 12 months of physical examination as US Army requirement is for annual pap smears unless: 1.) applicants are 30 years of age or older, have no past history of dysplasia and have had 3 consecutive normal pap smears are only required to have a pap every 3 years. 2.) applicants have a hysterectomy for reasons other than cervical dysplasia or cancer, are not required to have paps. Women's health examinations may be transcribed and do not have to be repeated if current.
- (14) IAW USMEPCOM Regulation 40-1, enlistment/commissioning physicals from civilian sources are required to have pap smears within 12 months of physical examination if over 40 years of age. However IAW DoDI 6130.03 applicants must not have abnormal gynecologic cytology within the preceding 2 years. Women's health examinations may be transcribed and do not have to be repeated if current (< 12 months).
- (15) DNA specimen collection is not required for civilian/ROTC applicants for initial flying class physicals, special operational duty, enlistment, and commissioning examinations
- (16) For entry into NDSTC dive training, applicant must have at least two Hepatitis A vaccinations documented. Titers demonstrating immunity is also acceptable.
- (17) For entry into NDSTC dive training, applicant must have at least two Hepatitis B vaccinations documented. Titers demonstrating immunity is also acceptable.
- (18) IAW AFI 44-102 applicants are current if keeping with present nationally recognized guidelines, such as those published by the American College of Obstetricians and Gynecologists (ACOG) or the US Preventive Services Task Force (USPSTF). Record date and result on DD FORM 2808. Women's health examinations may be transcribed and do not have to be repeated if current.
- (19) IAW MANMED P117 applicants over 40 years old are current if mammogram obtained within 12 months of examination keeping with the American College of Obstetricians and Gynecologists (ACOG) or the American College of Radiology (ACR) guidelines. Record date and result on DD FORM 2808. Women's health examinations may be transcribed and do not have to be repeated if current.
- (20) IAW AR 40-501 applicants over age 40 years old require mammography every 1-2 years. Women's health examinations may be transcribed and do not have to be repeated if current.
- (21) IAW USMEPCOM Regulation 40-1, enlistment/commissioning physicals from civilian sources are required to have mammograms within 12 months of physical examination if over 40 years of age. Women's health examinations may be transcribed and do not have to be repeated if current (< 12 months).
- (22) A Type 1 - Comprehensive Oral Examination. This is the most comprehensive hard and soft tissue examination. It is mouth-mirror examination by the dentist with new or existing appropriate radiographs. Full mouth intraoral periapical or panoramic radiographs with posterior bitewing radiographs are no longer required. The extent of the exam necessary to properly evaluate the patient is left up to the dentist.
- (23) A Type 2 - Periodic Oral Examination. This is a comprehensive hard and soft tissue examination. It is mouth-mirror examination by the dentist with new or existing appropriate radiographs. Enlistment/commissioning exams only require visual inspection by the examining provider with appropriate remarks e.g. Oral examination performed by examining flight surgeon. No gross abnormalities noted. Meets enlistment (or commissioning) standards.
- (24) Make specific statements on TM mobility with valsalva on the DD FORM 2808, such as: TMs mobile with valsalva bilaterally. Tympanic membrane mobility must be documented in blocks 44 and 72.b. of the DD FORM 2808.
- (25) A complete neurological exam must be documented on each Diving Physical. This serves as a useful baseline to rule out DCS Type II if the person is being evaluated post dive for complications. A complete intact neurological examination consists of: Cranial Nerves II-XII grossly intact bilaterally; Strength 5/5 throughout; Sensation intact to light touch throughout; Cerebellar intact (RAM, FTN, HTS); Mental Status NML, A&Ox4, serial 7s intact from 100; Romberg Negative; Gait NML; Reflexes 2+ symmetric bilaterally on heels, patellas, biceps, triceps, brachioradialis, Babinski Reflex downgoing bilaterally.
- (26) Edit this statement if the examinee had an affirmative reply to any of the following questions then record the reply in the medical history and omit the corresponding phrase from the denial statement. These questions are: 1.) Is there a history of diabetes in yourself or in your family (parent, sibling, or more than one grandparent)? 2.) Is there a history of psychosis (mental illness) in yourself or in your family (parent or sibling)? 3.) Do you now or have you ever worn contact lenses? 4.) Have you ever had irradiation therapy? 5.) Have you ever experienced motion sickness or disturbance or consciousness? 6.) Are there any other items of medical or surgical history that you have not mentioned?
- (27) Include this statement in item 73 of the DD FORM 2808.
- (28) Edit this statement to match the purpose of the examination.

Please contact Mr. James Cahill at james.cahill@us.af.mil with improvement suggestions and/or corrections.

 USMEPCOM Form 40-1-9, 40 and Over Physical Supplement Worksheet Sheet, 1 April 2017

v1 - October 2017 Version 1

Unofficial release to PACAF MTFs - Read Only Version

v2 - January 2018 Version 2

Updated Dental Examinations for I/IA examinations to reflect Type I dental examination requirement

Added BAT requirement for OCONUS Enlistment/Commissioning

Removed the 70th Birthday Air Force emblem and replaced with the Standard Air Force emblem

v3 - June 2018 Version 3

Removed Near Point of Convergence (PC)

v4 - September 2018 Version 4

Clarified DNA specimen collection not required for civilian/ROTC applicants

Updated references

v5 - July 2019 Version 5

Updated naming for 1A0X1, 1A3X1, 1A9X1, 1U0X1, and 13LX in line with the Air Force Enlisted and Officer Classification Directories

Added HMFF requirement to 1C4X1

Added HMFF requirement to 13LX

Added 13M AFSC column

Added Corneal Topography requirement to all IFC/SOD examinations

Added Optical Coherence Tomography (OCT) requirement to all IFC/SOD examinations

Removed ABO, Syphilis, and Night Vision requirements for MDD that are not required for AFSC duties

Changed PPD to TB Screening (PPD or IGRA)

Added Babinski Reflex to Comprehensive Neurological Examination

Updated references and abbreviations
