"(I)S qualified for initial Flying Class						
III/Airborne/Combat Control or Pararescue or SERE Specialist/Marine Diving Duty." ¹⁵					X	

FOOTNOTES:

- (1) IAW USMEPCOM Regulation 40-1, for applicants over 40 years old, an Over-40 Physical Supplemental Worksheet (USMEPCOM Form 100) and submitted with physical. Additionally a FBS, lipids, waist circumference, 12 lead ECG, IOP, and for female applicants a mammogram performed within the preceding 12 months are required. If applicant is over 50 years old, a DRE with FOBT is also required.
- (2) Dive physicals are acceptable for courses at the Naval Diving and Salvage Training Center (NDSTC) for up to 24 months to the class.
- (3) Static Line Parachute Training/Basic Airborne Training examinations are valid for up to 60 months. If it is older than 24 months the examinee must require an interim history form to be completed by the examinee. The member should be directed to the Army Airborne School for the appropriate form to complete.
- (4) HALO/Military Free Fall (HMFF) examinations are valid for up to 24 months from date of exam to class convene date.
- (5) The following items are disqualifying for Army HMFF training: Uncorrected near visual acuity (14 inches) of worse than 20/50 in the distant visual acuity of worse than 20/100 in either eye. Distant vision that does not correct to 20/20 in both eyes with spectacle lenses than plus or minus 8 diopters. Failure to pass the PIP or FALANT test for color vision unless the applicant is able to identify vivid red on the Ophthalmological Projector or the SVT.
- (6) Soft lenses must not be worn for at least 30 days before initial flying physicals. Hard, rigid, gas permeable lenses must not be worn the exam. Confirmation of this must be documented on the DD FORM 2808.
- (7) For NDSTC dive training, test must be completed within 90 days of the physical examination date. The applicant will be required to EKG with interpretation, audiogram, DD FORM 2766C (Immunization Record), as well as printouts of the chest radiograph interpretation. These items should be included in the dive packet. Before leaving for dive school the applicant should also complete NAVPERS 1200/6 serve as an interval medical history from the time of the dive physical was completed to the present.
- (8) For urinalysis comment on specific gravity, pH, glucose, protein, ketones, blood as well as microscopic RBCs and WBCs.
- (9) In addition to urine HCG testing, during the dive medical exam female applicants will be counseled on the potential hazards to the fetus. Counseling must be documented on the DD Form 2808, block 73.
- (10) IAW DoDI 6485.01 military personnel will be routinely screened every 2 years for HIV unless more frequent screenings are clinically indicated (must be within 2 years for military personnel and within 90 days for civilian personnel) HIV test result.
- (11) IAW AFI 44-102 applicants are current if keeping with present nationally recognized guidelines, such as those published by the American Obstetricians and Gynecologists (ACOG) or the US Preventive Services Task Force (USPSTF). Record date and result on DD FORM 2808. Examinations may be transcribed and do not have to be repeated if current.
- (12) IAW MANMED P117 applicants are current if keeping with the American Society for Clinical Pathology (ASCP) guidelines. Record date and result on DD FORM 2808. Women's health examinations may be transcribed and do not have to be repeated if current.
- (13) IAW AR 40-501, applicants for SLPD and HALO/MFF duties require pap smears within 12 months of physical examination as US Army requires pap smears unless: 1.) applicants are 30 years of age or older, have no past history of dysplasia and have had 3 consecutive normal pap smears every 3 years. 2.) applicants have a hysterectomy for reasons other than cervical dysplasia or cancer, are not required to have pap smears. Examinations may be transcribed and do not have to be repeated if current.
- (14) IAW USMEPCOM Regulation 40-1, enlistment/commissioning physicals from civilian sources are required to have pap smears with interpretation if over 40 years of age. However IAW DoDI 6130.03 applicants must not have abnormal gynecologic cytology within the past 12 months. Examinations may be transcribed and do not have to be repeated if current (< 12 months).
- (15) For entry into NDSTC dive training, applicant must have at least two Hepatitis A vaccinations documented. Titers demonstrating immunity.
- (16) For entry into NDSTC dive training, applicant must have at least two Hepatitis B vaccinations documented. Titers demonstrating immunity.
- (17) IAW AFI 44-102 applicants are current if keeping with present nationally recognized guidelines, such as those published by the American Obstetricians and Gynecologists (ACOG) or the US Preventive Services Task Force (USPSTF). Record date and result on DD FORM 2808. Examinations may be transcribed and do not have to be repeated if current.
- (18) IAW MANMED P117 applicants over 40 years old are current if mammogram obtained within 12 months of examination keeping with present nationally recognized guidelines, such as those published by the American Obstetricians and Gynecologists (ACOG) or the American College of Radiology (ACR) guidelines. Record date and result on DD FORM 2808. Examinations may be transcribed and do not have to be repeated if current.
- (19) IAW AR 40-501 applicants over age 40 years old require mammography every 1-2 years. Women's health examinations may be transcribed and do not have to be repeated if current.
- (20) IAW USMEPCOM Regulation 40-1, enlistment/commissioning physicals from civilian sources are required to have mammograms with interpretation if over 40 years of age. Women's health examinations may be transcribed and do not have to be repeated if current (< 12 months).
- (21) A Type 1 - Comprehensive Oral Examination. This is the most comprehensive hard and soft tissue examination. It is mouth-mirror examination with new or existing appropriate radiographs. Full mouth intraoral periapical or panoramic radiographs with posterior bitewing radiographs. The extent of the exam necessary to properly evaluate the patient is left up to the dentist.
- (22) A Type 2 - Periodic Oral Examination. This is a comprehensive hard and soft tissue examination. It is mouth-mirror examination with new or existing appropriate radiographs. Enlistment/commissioning exams only require visual inspection by the examining provider with appropriate radiographs. Examination performed by examining flight surgeon. No gross abnormalities noted. Meets enlistment (or commissioning) standards.
- (23) Make specific statements on TM mobility with valsalva on the DD FORM 2808, such as: TMs mobile with valsalva bilaterally.
- (24) A complete neurological exam must be documented on each Diving Physical. This serves as a useful baseline to rule out DCS Type I and II. Evaluated post dive for complications. A complete intact neurological examination consists of: Cranial Nerves II-XII grossly intact bilaterally; Sensation intact to light touch throughout; Cerebellar intact (RAM, FTN, HTS); Mental Status NML, A&Ox4, serial 7s intact; Gait NML; Reflexes 2+ symmetric bilaterally on heels, patellas, biceps, triceps, brachioradialis.
- (25) Edit this statement if the examinee had an affirmative reply to any of the following questions then record the reply in the medical history corresponding phrase from the denial statement. These questions are: 1.) Is there a history of diabetes in yourself or in your family (parent or grandparent)? 2.) Is there a history of psychosis (mental illness) in yourself or in your family (parent or sibling)? 3.) Do you now wear contact lenses? 4.) Have you ever had irradiation therapy? 5.) Have you ever experienced motion sickness or disturbance or conscious loss of consciousness of medical or surgical history that you have not mentioned?
- (26) Include this statement in item 73 of the DD FORM 2808.
- (27) Edit this statement to match the purpose of the examination.

Please contact Mr. James Cahill at james.cahill@us.af.mil with improvement suggestions and/or corrections.

IFC = Initial Flying Class
 GBC = Ground Based Controller
 SLPD = Static Line Parachute Duty
 HMFF = HALO/Military Free Fall
 HALO = High Altitude Low Opening
 MDD = Marine Diving Duty
 MOD = Missile Operations Duty
 OSF = Operational Support Flying Duty
 ARMA = Adaptability Rating for Military Aviation
 AR = Adaptability Rating for
